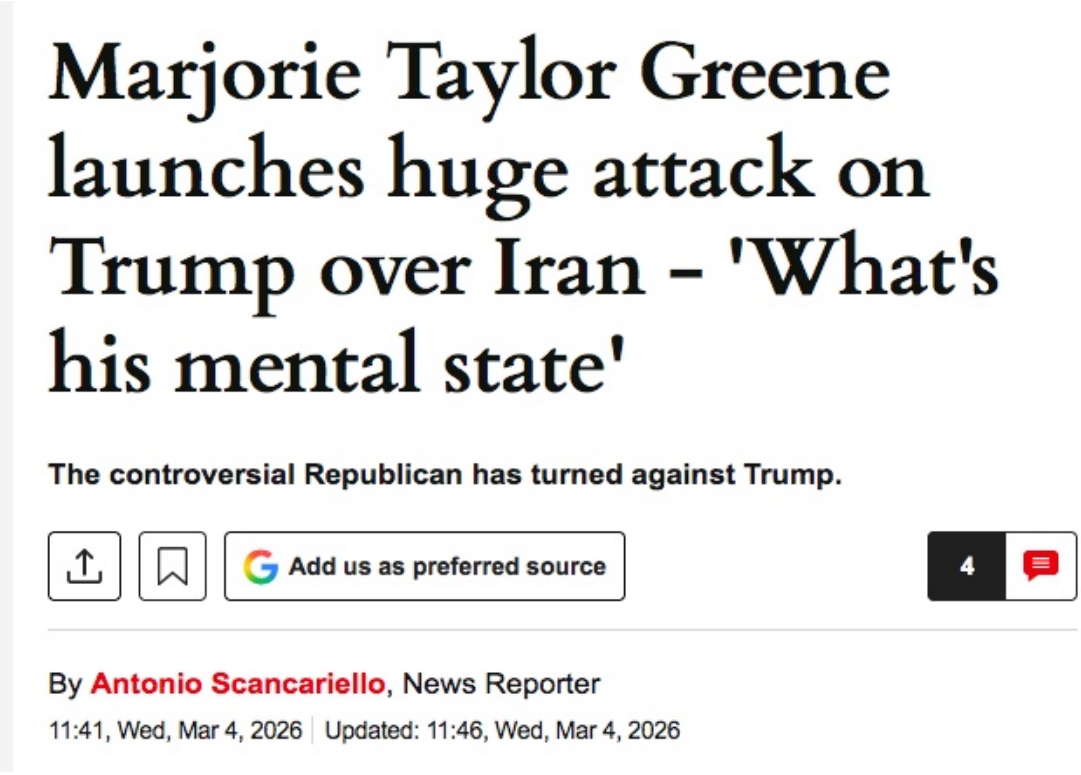
March 05, 2026: On MTG is a Hero that has been Speaking Truth for Years

For those in the world that have been following along closely for years, we can see that MTG has been speaking the truth about American for years now and has been on the 'right side' of history since she first entered the scene.

Thank you, MTG, for speaking the truth about DJT - **the old man has really lost it**. What is his mental state? From my perspective, **he has become absolutely drunk in power**. **The old man had a real streak of evil venom inside of him** - **a sense of insecurity** in **knowing that his life choices are completely wrong if not justified by money and power over others**.

Now, **the old man is hanging on with every bit of venom and anger he has to 'prove' himself to the world**.

We are witnessing something that we never believed could happen in America.



Marjorie Taylor Greene launches huge attack on Trump over Iran – 'What's his mental state'

The controversial Republican has turned against Trump.

The old man is literally attempting to prosecute people for using an 'auto-pen' to sign documents? Look, I haven't read the law on this to see the actual 'crime' that was alleged, but I do know that the USA military is still sending criminals to drive vehicles past my home in the middle of the night to intimidate me while I read the news.

Justice Dept., Under Pressure From Trump, Fails to Build Autopen Case Against Biden

Prosecutors in the U.S. attorney's office in Washington were unable to build a case, underscoring the department's increasing inability to follow through on the president's desire to indict his rivals.

The old man is now Donald ('the John')(Convicted felon and accused child molester) Trump.

His 'mental state' is something that I only read about in the Bible before seeing him manifest his true face to my life over the past 4 years.

'IT' is something created by a Biblical evil only found in the Bible.

And now, we are embarking on the second major war in the middle east alongside is true owner, Israel.

Trump's call to pardon Netanyahu - Stuns Israel
Oct 13, 2025 — This isn't the first time Trump has called for Netanyahu to be pardoned ahead of a trial for bribery, fraud and breach of trust, including ...

I truly, from the bottom of my heart, believe that Jeffrey Epstein was Israel's path to own Donald Trump and many others around the world as they succeeded in carrying out Neo-Nazi-ism against our modern world.

Leaders, and public, this type of evil does not quit. It only hides itself and convinces you that it doesn't exist or could not be real. This type of evil is eternal evil lying deep in the hearts of mankind and is only seen in some rare, terrible, and horrific occasions.

Donald Trump's second presidential administration is one of those times.

Israel's modern government is another.

We are witnessing a slow-motion (and at other times full speed ahead) **multi-generational genocide**.

Where else have you heard of such evil other than the Bible of Israel? One genocide. We have seen. A generation of genocide exists. But, this is multi-generational and does explain why these wars simply never end.

Personally, I am sick of it. This is the darkest evil of the Bible and it is time for everyone to step up and say NO MORE!
